

Executive Assistant to DCI

25 August 1951

Assistant Director, Research and Reports

ORR Survey

This memorandum is to report for the information of DCI and DDCI that this Office, with the approval of the Economic Intelligence Committee, is conducting a survey requesting a large number of agencies to supply us with information on their economic research programs relating to the Soviet orbit.

In most cases I have requested this information from each agency's designated representative on the E.I.C. The Navy's representative asked, however, that the request go to Admiral Johnson's office.

My letter to him is attached to this memo for information in the event that he makes inquiries of the DCI.

MAX F. MILLIKAN
